***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-21 are allowed over prior art of record because the cited references either alone or combined do not disclose the claimed invention:

A method and a system for adjusting alarm clock wake-up signals, the method comprising the steps of:

(a) tracking the overall behavior of a person in a predetermined area under surveillance after the activation of an alarm clock;

(b) determining whether the person is motionless within a first predetermined time period based on the results of said tracking; and

(c) gradually increasing the alarm clock signals of said alarm clock if it is determined that the person is motionless.

The underline limitations are critical since it shows the system of improvement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
